X Description of the item or service required, the estimated cost, and required delivery date.

The desktop radio will be programmed for Delacarla's preexisting system, along with installation of Bi-Directional Amplifier. It will give great outdoor coverage as well as indoor coverage. Programming all radios for this site with local talk group will enhance indoor coverage. The estimated cost of survey and installation of this amplifier was quoted at a total of \$73,337.20. Delivery date will contingent on the approval and payment of services.

X Specific characteristics of the material or service that limit the availability to a sole source (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

Existing system was installed a maintained by Superior Communications Inc. all service and equipment to be installed will be compatible with existing equipment.

X The requested material or service represents the minimum requirements of the government.

CHECK & FILL IN ALL APPLICABLE BLANKS BELOW

X The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.

All material and service are compatible in form, fit, and function with existing system and give Delacarla the added capability of having communication within the facility since due to the construction of the building as a top secret facility the need for the amplifier will help with the issue of non-communication through the lead walls.

____ A patent, copyright or proprietary data limits competition. The proprietary data is _____

____ These are "direct replacements" parts/components for existing equipment.
